# Programa de hoy

---

Algunas innovaciones pueden tener un efecto en cómo realizamos nuestra labor de cada día. Presentamos brevemente el nuevo Skydrive y algunos aspectos colaborativos de los futuros Windows 8 y Office 15.

Pero ¿de dónde se saca la inspiración? ¿Cómo se hace para dibujar el plano de una casa, o dos planes con variaciones para una clase de conversación? En este sinfín de herramientas en línea, hay algunas que son más importantes que otras. Pero decidir cuáles depende de cada uno, y de la situación en la que uno trabaja. Mostramos sitios para la

confección o la preparación de imágenes, para organizar el trabajo docente, y para encontrar materiales para uso en clase. Son sitios, no programas que hay que instalar - o sea que se pueden usar desde cualquier ordenador de cualquier local de profesores o de casa.
